PROFESSIONAL SUMMARY

Results-driven BSc Computer Science graduate specializing in Java Full Stack Development. Strong foundation in Core Java, Spring Boot, REST APIs, and modern frontend technologies. Developed multiple real-world applications with secure authentication and scalable architecture. Passionate about building high-performance applications and continuously learning new technologies.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL

Frontend: HTML5, CSS3, Bootstrap, Tailwind CSS, React.js

Backend: Core Java, JDBC, Spring Boot, Hibernate

Database: MySQL

Tools: Git, GitHub, VS Code, NetBeans

Concepts: OOP, REST APIs, CRUD, Authentication, Responsive Design

PROJECTS

Doctor–Patient Appointment System

- Designed RESTful APIs for appointment booking and user management
- Implemented secure authentication using role-based access control
- Tech: Spring Boot, Hibernate, MySQL

Restaurant and Menu Management System

- Built a dynamic food ordering system with cart and login features
- Improved user interaction using AJAX-based updates
- Tech: HTML, CSS, JavaScript, PHP, MySQL

UrbanStyle E-commerce Website

- Developed responsive UI with product filtering and routing
- Integrated external API for real-time product data
- Tech: React.js, Tailwind CSS

EDUCATION

BSc Computer Science, SNBP College, Pune (2022–2025)

12th: Bharat English School, Pune

10th: Ramchandra Gaikwad School, Pune

CERTIFICATIONS

- FreeCodeCamp Frontend Libraries
- Responsive Web Design
- IBM SQL Certification
- Java Programming – Anudip Foundation

SOFT SKILLS

Teamwork | Leadership | Communication | Problem Solving
